

DR. RANJITSINH D. SOLANKI
(B.S.A.M., Herbal Oncologist)

Solankiz Health Care, The New Age Herbs

About us :

Dr Solankiz health Care is dream of visionary eminent researcher Dr Ranjitsinh Solanki , whose name is known in field of 'Botanical Drug development' for incurable disease management like Cancer, HIV, degenerative disease, Hormonal disorders and other incurable diseases '.

Dr Solanki is affiliated with world prestigious research institute of western country.

Our pathway :

Dr Solankiz health Care research team has been involved in conducting intensive research on the 'INDIAN SYSTEMS OF MEDICINE' in the light of modern pharmacological parameter as per the global standards set by the WHO & F.D.A.

We Modernize, Validate & Restructure age old empirical therapeutic formulation on base of Cellular and Modern Molecules Structure.

We successfully developed **Evidence based** new therapeutic formulation known as "Botanical Drug Product" which offers **Safety, Quality and Efficacy.**

We assure :

- **Dr Solankiz Health Care Commitment**
- **Safety, Quality and Efficacy.**
- **Batch to Batch Consistency.**
- **Compare each batch with quality standards to a solid reference point.**
- We are accredited **G.M.P.** pharmaceutical unit. We adopt rigid and specific processing rules with all modern sciences tools.
- **We assure our product always provide Consistent efficacy and health benefit proven in the clinical trails.**

Our some Quality step :

- The proper plant identification, finger print to standardization of raw materials.
- We have State-of-art laboratory equipment and instrument to ensure the Batch to Batch consistency of the raw materials.
- Following complex and precise manufacturing practices with modern biosciences tools.
- We have a huge plant data created by high through-put research bioinformatics search engine, which is sophisticated technology base on cellular and molecules biological activities that delivered with targeted well-researched form of therapy.
- We using rigorous **Quality Control** tool like **Chromatographic** finger printing, HPLC etc, that offer the consistency, efficacy & Quality with safe product.

Innovative Natural Product

for joint health...

ARTHRON

- Anti inflammatory Analgesic
- Reduces Oedema and Arthritic
- Reduction in pain sensitivity
- Increase in joint flexibility

Dr. Solanki

Cap. ARTHRON joint health !

Botanical name-Ingredients Contain / extract

Cyperus rotundus Linn
Withania somnifera Linn
Smilax china Linn
Swertia chirayita Roxb
Allium sativum Linn
Vitex negundo Linn
Trikatu / Zinzer, piper nigrum, piper longa
Group of three herbs / Trigonella foenum Linn
Plumbago Indica Linn
Boswellia serrata Roxb
Ocimum sanctum / Holly basil.

Classical use

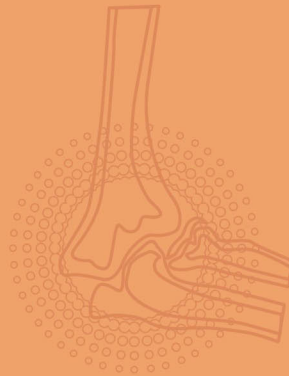

Tinosporon, tinosporic acid, Beta sitosterol, prescribe for Oedema, fever, tonic for Age sustainer, promote virility. Quercetin, dermatosis, bronchial asthma, senility. **Anti inflammatory**, anti bacterial prescribe for urinary disease and splenic disorders, **Rejuvenation**, Neurological affection, Muscular atrophy.

Active Ingredients & Pharmacology

Contain - Tannins, Chebulinic acid, chebulin, **Potent Antioxidant**, chemopreventive, anti spasmodic, anti bacterial and anti fungal properties. **Curcuminoids**, phytosterol, **Acute or chronic inflammation**, increasing biliary excretion, exhibit hepatoprotective, Lowering cholesterol, triglycerides, cardiac stimulant, Immunomodulator in animal models.

Research findings

- Inhibits the Production of Pro-inflammatory leukotrienes by the enzyme 5-Lipoxygenase.
- Reduces the degradation of Glycosaminoglycans, major components of connective tissue in experimental animals.

ARTHTRON

- References** :
 - Gupta MB et al, Indian Pharmac, 1970,
 - Nadkarni KM Indian Materia Medica Vol 1, 1954
 - Wealth of India, 1976 & CSIR, 1980
- Therapeutic use & Indications** : **Arthritis, Alleviate symptoms of chronic rheumatic inflammation, Increase in joint flexibility, Relax muscular tenderness and Oedema.**
- Toxicity / Safety** : The drug used traditionally in prescribed doses may be considered safe
- Dose** : 2 capsules daily or as prescribe by health provider.
- Presentation** : 60 capsules (jar)
