

DR. RANJITSINH D. SOLANKI
(B.S.A.M., Herbal Oncologist)

Solankiz Health Care, The New Age Herbs

About us :

Dr Solankiz health Care is dream of visionary eminent researcher Dr Ranjitsinh Solanki , whose name is known in field of 'Botanical Drug development' for incurable disease management like Cancer, HIV, degenerative disease, Hormonal disorders and other incurable diseases '.

Dr Solanki is affiliated with world prestigious research institute of western country.

Our pathway :

Dr Solankiz health Care research team has been involved in conducting intensive research on the 'INDIAN SYSTEMS OF MEDICINE' in the light of modern pharmacological parameter as per the global standards set by the WHO & F.D.A.

We Modernize, Validate & Restructure age old empirical therapeutic formulation on base of Cellular and Modern Molecules Structure.

We successfully developed **Evidence based** new therapeutic formulation known as "Botanical Drug Product" which offers **Safety, Quality and Efficacy.**

We assure :

- **Dr Solankiz Health Care Commitment**
- **Safety, Quality and Efficacy.**
- **Batch to Batch Consistency.**
- **Compare each batch with quality standards to a solid reference point.**
- We are accredited **G.M.P.** pharmaceutical unit. We adopt rigid and specific processing rules with all modern sciences tools.
- **We assure our product always provide Consistent efficacy and health benefit proven in the clinical trails.**

Our some Quality step :

- The proper plant identification, finger print to standardization of raw materials.
- We have State-of-art laboratory equipment and instrument to ensure the Batch to Batch consistency of the raw materials.
- Following complex and precise manufacturing practices with modern biosciences tools.
- We have a huge plant data created by high through-put research bioinformatics search engine, which is sophisticated technology base on cellular and molecules biological activities that delivered with targeted well-researched form of therapy.
- We using rigorous **Quality Control** tool like **Chromatographic** finger printing, HPLC etc, that offer the consistency, efficacy & Quality with safe product.

Innovative Natural Product

Plant Based Estrogenic Agent !

OSTOPORAX

- Osteoporosis
- Calcium deficiency
- Anti inflammatory and Analgesic

Cap. OSTOPORAX

Botanical name-Ingredients Contain / extract

Sida cordifolia Linn
Boerhavia diffusa Linn
Commiphora mukula HK
Terminalia chebula Retz
Withania somnifera Linn
Azadirachta Indica A.juss

Classical use

Promote fertility prescribe in Oedema, Bilioussness, Nervous system disease, internal abscess, Excellent revitalizing, tonic, Obesity, Sluggishness, demulcent. Uterine and Vaginal disorders, Inflammatory joint disiases.

Active Ingredients & Pharmacology

Contain - Chebulic acid, Chebulin, tannins shows Anti oxidant, Aphrodisiac, Age sustain, promot virility, spermatogenic, Libido stimulant and Mental health. Use for Virulent skin disease, urinary discharge, chronic fever, tumor, Blood purifier, Antiperiodic, Rheumatic swelling. Nimbidin shows **Anti inflammatory**, anti diabetics, wound healing, anti bacterial, anti fungal properties. Alkaloid ephedrine, Beta phenethylamine, Vasicinone, Exhibited significant bronchodilatory, cardiac stimulant activity. 🍏 Guggulsterones, diterpenoids, use ful in **Atherosclerosis, shows anti inflammatory and Analgesic Properties.**

Research Findings

- 'Pytoestrogen contents in traditional Medicinal herbs is useful in Prevention and treatment of chronic diseases such as Osteoporosis'

- References** : ■ S.S Biradar, ST Bhagvati Wealth of India 2006
■ G.K.Rusineni, CSIR 1992
- Therapeutic use & Indications** : ■ **Osteoporosis, Osteomalcia and Calcium deficiency syndrome**
- Toxicity / Safety** : ■ No adverse effects have been reported in the literature.
■ Its use in human since long time with safety.
- Dose** : 2 capsules daily or as prescribe by health provider.
- Presentation** : 60 capsules (jar)
