

**DR. RANJITSINH D. SOLANKI**  
(B.S.A.M., Herbal Oncologist)

## Solankiz Health Care, The New Age Herbs

### About us :

Dr Solankiz health Care is dream of visionary eminent researcher Dr Ranjitsinh Solanki , whose name is known in field of 'Botanical Drug development' for incurable disease management like Cancer, HIV, degenerative disease, Hormonal disorders and other incurable diseases '.

Dr Solanki is affiliated with world prestigious research institute of western country.

### Our pathway :

Dr Solankiz health Care research team has been involved in conducting intensive research on the 'INDIAN SYSTEMS OF MEDICINE' in the light of modern pharmacological parameter as per the global standards set by the WHO & F.D.A.

**We Modernize, Validate & Restructure age old empirical therapeutic formulation on base of Cellular and Modern Molecules Structure.**

We successfully developed **Evidence based** new therapeutic formulation known as "Botanical Drug Product" which offers **Safety, Quality and Efficacy.**

### We assure :

- **Dr Solankiz Health Care Commitment**
- **Safety, Quality and Efficacy.**
- **Batch to Batch Consistency.**
- **Compare each batch with quality standards to a solid reference point.**
- We are accredited **G.M.P.** pharmaceutical unit. We adopt rigid and specific processing rules with all modern sciences tools.
- **We assure our product always provide Consistent efficacy and health benefit proven in the clinical trails.**

### Our some Quality step :

- The proper plant identification, finger print to standardization of raw materials.
- We have State-of-art laboratory equipment and instrument to ensure the Batch to Batch consistency of the raw materials.
- Following complex and precise manufacturing practices with modern biosciences tools.
- We have a huge plant data created by high through-put research bioinformatics search engine, which is sophisticated technology base on cellular and molecules biological activities that delivered with targeted well-researched form of therapy.
- We using rigorous **Quality Control** tool like **Chromatographic** finger printing, HPLC etc, that offer the consistency, efficacy & Quality with safe product.

**ALZIN**

- Mental debility
- Cunnitive dysfunction
- Loss of memory

Dr. Solanki

# Cap. ALZIN

## Botanical name Ingredients Contain / extract

Withania somnifera Linn  
Gaduchi  
Tinospora cordifolia Willd  
Mucuna prurita Hook  
Leptadenia reticulata Retz  
Convolvulus pluricaulis Choisy  
Curcuma longa Linn  
Bacopa monnieri Linn

## Classical use

Aphrodisiac, Mental health, Tinosporon, tinosporic acid, Beta sitosterol, Nervous systems, Promote health and longevity. Promote intellect, **Brain tonic, Alleviates confusion, Insomnia, psychoneurosis.** nervous debility, delirium, poor memory, promoting. intellect in children, brain tonic.

## Active Ingredients & Pharmacology

Seeds contain L-Dopa and amino acids, glutathione, Mucunine, Prurienine, Mucunadine Credits as **anti-depressant, sleep disturbance, tranquillizing and Nervine tonic. Use for Insomnia, significant reduction in the degree of clinical anxiety and depression.** shows **CNS-depressant, Traumatic brain injury, neuromuscular blocking,** tranquillizing, improving mental function.

## Research Findings

- Withanoids shows potent efficacy again Traumatic Brain Injury in animal models.

# ALZIN

- References** : ■ Withania coagulans dunal. Cuminum cyminum L. Laptadenia
- Therapeutic use & Indications** : ■ **Alzheimer, Anxiety, Insomnia.**
- Toxicity / Safety** : ■ The drug used traditionally in prescribed doses may be considered safe
- Dose** : ■ 2 capsules daily or as prescribe by health provider.
- Presentation** : ■ 60 capsules (jar)
