

**DR. RANJITSINH D. SOLANKI**  
(B.S.A.M., Herbal Oncologist)

## Solankiz Health Care, The New Age Herbs

### About us :

Dr Solankiz health Care is dream of visionary eminent researcher Dr Ranjitsinh Solanki , whose name is known in field of 'Botanical Drug development' for incurable disease management like Cancer, HIV, degenerative disease, Hormonal disorders and other incurable diseases '.

Dr Solanki is affiliated with world prestigious research institute of western country.

### Our pathway :

Dr Solankiz health Care research team has been involved in conducting intensive research on the 'INDIAN SYSTEMS OF MEDICINE' in the light of modern pharmacological parameter as per the global standards set by the WHO & F.D.A.

**We Modernize, Validate & Restructure age old empirical therapeutic formulation on base of Cellular and Modern Molecules Structure.**

We successfully developed **Evidence based** new therapeutic formulation known as "Botanical Drug Product" which offers **Safety, Quality and Efficacy.**

### We assure :

- **Dr Solankiz Health Care Commitment**
- **Safety, Quality and Efficacy.**
- **Batch to Batch Consistency.**
- **Compare each batch with quality standards to a solid reference point.**
- We are accredited **G.M.P.** pharmaceutical unit. We adopt rigid and specific processing rules with all modern sciences tools.
- **We assure our product always provide Consistent efficacy and health benefit proven in the clinical trails.**

### Our some Quality step :

- The proper plant identification, finger print to standardization of raw materials.
- We have State-of-art laboratory equipment and instrument to ensure the Batch to Batch consistency of the raw materials.
- Following complex and precise manufacturing practices with modern biosciences tools.
- We have a huge plant data created by high through-put research bioinformatics search engine, which is sophisticated technology base on cellular and molecules biological activities that delivered with targeted well-researched form of therapy.
- We using rigorous **Quality Control** tool like **Chromatographic** finger printing, HPLC etc, that offer the consistency, efficacy & Quality with safe product.

# BRONCHIN

- Anti Asthmatics
- Allergic Bronchitis
- Expectorant

Dr. Solanki

# Cap. BRONCHIN

## Botanical name-Ingredients Contain / extract

Curcuma longa  
Trikatu / Zinzer, piper nigrum, piper longa  
Ocimum sanctum / Holly basil  
Tylophora Indica Burm  
Calotropis gigantea Linn  
Solanum ferox Linn  
Tinospora cordifolia Willd  
Clerodendrum serratum L. moon  
Adhatoda vasica. Linn

## Classical use

Used in bronchial asthma, antispasmodic, anti inflammatory, anti bacterial, cough, asthma, Lung infection. Toxicoses, expectorant, pulmonary disease.

## Active Ingredients & Pharmacology

Contain - Curcuminoids, phytosterol shows Therapeutic Efficacy for acute or chronic inflammation, chemopreventive, **Antioxidant, Immuno modulator** and Cancer preventive agent. Major components essential oil are Eugenol, carvacrol, ursolic acid. Plant increase physical and mental endurance, potent anti stress. Antihypertensive. properties. **Bronchodilator, and Histaminic** activity. Tylophoridive shows potent effect as **Anti Bronchospasmatic and Anti inflammatory.** Cardiac glycosides, calotropin, Solasonine, diosgenin, solasodine, Prostaglandin, Tinosporon, acid, triterpenoid vasicine, showed expectorant action, expel cough, Broncho dilatory activity, **Respiratory stimulant. Anti bacterial and anti fungal.** activity.

## Research Findings

- **Inhibition of constrictor response and Anti Asthmatic effect.**
- **Anti Allergic and reduce BRONCHO SPASM**

- References** : ■ Histamine releasing effects by Gupta S.S.,

- Therapeutic use & Indications** : **Bronchial asthma, Chronic Bronchitis, Smoker's cough, Allergic Bronchitis, Expectorant.**
- Toxicity / Safety** : ■ No adverse effects have been reported in the literature. Its use in human since long time with safety.
- Dose** : 2 capsules daily or as prescribe by health provider.
- Presentation** : 60 capsules (jar)
