

DR. RANJITSINH D. SOLANKI
(B.S.A.M., Herbal Oncologist)

Solankiz Health Care, The New Age Herbs

About us :

Dr Solankiz health Care is dream of visionary eminent researcher Dr Ranjitsinh Solanki , whose name is known in field of 'Botanical Drug development' for incurable disease management like Cancer, HIV, degenerative disease, Hormonal disorders and other incurable diseases '.

Dr Solanki is affiliated with world prestigious research institute of western country.

Our pathway :

Dr Solankiz health Care research team has been involved in conducting intensive research on the 'INDIAN SYSTEMS OF MEDICINE' in the light of modern pharmacological parameter as per the global standards set by the WHO & F.D.A.

We Modernize, Validate & Restructure age old empirical therapeutic formulation on base of Cellular and Modern Molecules Structure.

We successfully developed **Evidence based** new therapeutic formulation known as "Botanical Drug Product" which offers **Safety, Quality and Efficacy.**

We assure :

- **Dr Solankiz Health Care Commitment**
- **Safety, Quality and Efficacy.**
- **Batch to Batch Consistency.**
- **Compare each batch with quality standards to a solid reference point.**
- We are accredited **G.M.P.** pharmaceutical unit. We adopt rigid and specific processing rules with all modern sciences tools.
- **We assure our product always provide Consistent efficacy and health benefit proven in the clinical trails.**

Our some Quality step :

- The proper plant identification, finger print to standardization of raw materials.
- We have State-of-art laboratory equipment and instrument to ensure the Batch to Batch consistency of the raw materials.
- Following complex and precise manufacturing practices with modern biosciences tools.
- We have a huge plant data created by high through-put research bioinformatics search engine, which is sophisticated technology base on cellular and molecules biological activities that delivered with targeted well-researched form of therapy.
- We using rigorous **Quality Control** tool like **Chromatographic** finger printing, HPLC etc, that offer the consistency, efficacy & Quality with safe product.

PREVENTION is Better Than CURE !

IMMUB-H

- Immuno modulator
- Anti Oxidant
- Anti Ageing

Dr. Solanki

Cap. IMMUB-H

Botanical name-Ingredients Contain / extract

Tinospora cordifolia Willd
Triphala (three maylobaran)
Withania somnifera Linn
Asparagus racemosus Willd
Curcuma longa Linn
Sida cordifolia Linn

Classical use

Tinosporon, tinosporic acid, Beta sitosterol, prescribe for Indigestion, Oedema, dermatosis, Urinary, Uterine and vaginal disorders, fever, tonic for eyesight, blood purifier, Galactagogue, purgative, Aphrodisiac, Mental health, Age sustainer, promote virility, spermatogenic, Libido stimulant Quercetin, hyperoside, Sitosterol saponins used in liver disorders, urinary affection, dermatosis, toxicosis, bronchial asthma, senility, malignant ulcer, wound healing, antispasmodic, anti inflammatory, anti bacterial prescribe for urinary disease and splenic disorders, rejuvenation, promote fertility, Hemiplegia, Neurological affection, Muscular atrophy.

Active Ingredients & Pharmacology

Contain tannins - Chebulinic acid, chebulin, potent Antioxidant, chemopreventive, purgative, antispasmodic, anti bacterial and anti fungal properties. 🍏 curcuminoids, phytosterol, treatment of Gallstones, acute or chronic inflammation, increasing biliary excretion, exhibited **hepatoprotection, chemo prevention, antioxidant, cancer preventive** and chemo adjuvant. lowering cholesterol, triglycerides, inhibit platelet aggregation. Antifungal, anti bacterial properties. 🍏 Alkaloid ephedrine, stimulant, **Immunomodulator**, shows anti bacterial, antifungal, anti viral activity.

Research Findings

- 'Rasayana' Rejuvenating group of herbs shows potent multifacial Wellness property.
