

DR. RANJITSINH D. SOLANKI
(B.S.A.M., Herbal Oncologist)

Solankiz Health Care, The New Age Herbs

About us :

Dr Solankiz health Care is dream of visionary eminent researcher Dr Ranjitsinh Solanki , whose name is known in field of 'Botanical Drug development' for incurable disease management like Cancer, HIV, degenerative disease, Hormonal disorders and other incurable diseases '.

Dr Solanki is affiliated with world prestigious research institute of western country.

Our pathway :

Dr Solankiz health Care research team has been involved in conducting intensive research on the 'INDIAN SYSTEMS OF MEDICINE' in the light of modern pharmacological parameter as per the global standards set by the WHO & F.D.A.

We Modernize, Validate & Restructure age old empirical therapeutic formulation on base of Cellular and Modern Molecules Structure.

We successfully developed **Evidence based** new therapeutic formulation known as "Botanical Drug Product" which offers **Safety, Quality and Efficacy.**

We assure :

- **Dr Solankiz Health Care Commitment**
- **Safety, Quality and Efficacy.**
- **Batch to Batch Consistency.**
- **Compare each batch with quality standards to a solid reference point.**
- We are accredited **G.M.P.** pharmaceutical unit. We adopt rigid and specific processing rules with all modern sciences tools.
- **We assure our product always provide Consistent efficacy and health benefit proven in the clinical trails.**

Our some Quality step :

- The proper plant identification, finger print to standardization of raw materials.
- We have State-of-art laboratory equipment and instrument to ensure the Batch to Batch consistency of the raw materials.
- Following complex and precise manufacturing practices with modern biosciences tools.
- We have a huge plant data created by high through-put research bioinformatics search engine, which is sophisticated technology base on cellular and molecules biological activities that delivered with targeted well-researched form of therapy.
- We using rigorous **Quality Control** tool like **Chromatographic** finger printing, HPLC etc, that offer the consistency, efficacy & Quality with safe product.

Dr. Solanki

Cap. INTEL

Botanical name-Ingredients Contain / extract

Centella asiatica Linn
Acorus calamus Linn
Convolvulus pluricaulis Choisy
Shatavari
Asparagus racemosus Willd
Ocimum sanctum / Holly basil
Withania somnifera Linn

Classical use

Prescribe in loss of memory, senile decay, promoting intellect and preventing ageing, convulsions, nervous debility, delirium, Brain tonic. promoting intellect, sedative, CNS suppressant, Alleviates confusion, Insomnia, psychoneurosis.

Active Ingredients & Pharmacology

Plant contain Saponins, bacosides, bacogenins, beutic acid, stigmasterol, use for cardio tonic, vasoconstrictor, neuromuscular blocking, tranquillizing, nervine tonic, improving mental function, and CNS suppressant. Plants contain Coumarins, beta sitosterol effective anti anxiety, tranquillizing effect. contain Alkaloid evolvine, **promot intellect property, Traumatic brain injury.** Major components essential oil are Eugenol, ursolic acid, luteolin. That increase physical and mental endurance.

Research Findings

- Rejuvenator of the Brain and Hypochondriacal affections.
- Based on HDR Score shows Excellent improvement in case of Moderate depression

- References** : ■ Walter's ' British Herbal
■ Great ethnic use for Intellectual promotion
- Therapeutic use & Indications** : **Anxiety and depression, Loss of Memory, Brain tonic**
- Toxicity / Safety** : ■ No adverse effects have been reported in the literature.
■ Its use in human since long time with safety.
- Dose** : 2 capsules daily or as prescribe by health provider.
- Presentation** : 60 capsules (jar)
