

DR. RANJITSINH D. SOLANKI
(B.S.A.M., Herbal Oncologist)

Solankiz Health Care, The New Age Herbs

About us :

Dr Solankiz health Care is dream of visionary eminent researcher Dr Ranjitsinh Solanki , whose name is known in field of 'Botanical Drug development' for incurable disease management like Cancer, HIV, degenerative disease, Hormonal disorders and other incurable diseases '.

Dr Solanki is affiliated with world prestigious research institute of western country.

Our pathway :

Dr Solankiz health Care research team has been involved in conducting intensive research on the 'INDIAN SYSTEMS OF MEDICINE' in the light of modern pharmacological parameter as per the global standards set by the WHO & F.D.A.

We Modernize, Validate & Restructure age old empirical therapeutic formulation on base of Cellular and Modern Molecules Structure.

We successfully developed **Evidence based** new therapeutic formulation known as "Botanical Drug Product" which offers **Safety, Quality and Efficacy**.

We assure :

- **Dr Solankiz Health Care Commitment**
- **Safety, Quality and Efficacy.**
- **Batch to Batch Consistency.**
- **Compare each batch with quality standards to a solid reference point.**
- We are accredited **G.M.P.** pharmaceutical unit. We adopt rigid and specific processing rules with all modern sciences tools.
- **We assure our product always provide Consistent efficacy and health benefit proven in the clinical trails.**

Our some Quality step :

- The proper plant identification, finger print to standardization of raw materials.
- We have State-of-art laboratory equipment and instrument to ensure the Batch to Batch consistency of the raw materials.
- Following complex and precise manufacturing practices with modern biosciences tools.
- We have a huge plant data created by high through-put research bioinformatics search engine, which is sophisticated technology base on cellular and molecules biological activities that delivered with targeted well-researched form of therapy.
- We using rigorous **Quality Control** tool like **Chromatographic** finger printing, HPLC etc, that offer the consistency, efficacy & Quality with safe product.

- Leucorrhoea
- Strength Vaginal Muscles
- Prevent Vaginal Prolapse
- Acute and Chronic Vaginitis

Dr. Solanki

Cap. LUCOR-N

Botanical name-Ingredients Contain / extract

Asparagus racemosus Willd
Berberis aristata DC
Butea monosperma Lam
Cinnamomum zeylanicum Woi
Ficus benghalensis Linn
Mesua ferrea auct. Linn
Mimosa pudica Linn
Symplocos racemosa Roxb
Woodfordia fruticosa Linn
Withania somnifera Linn
excipient

Classical use

Female tonic, Galactagogue,
Uterine and vaginal disorders, Leucorrhoea and menorrhagia
Menstrual disorders, malfunctioning of Liver, Sexual debility, emmenagogue, Antispasmodic, Antibacterial, Urinogenital disorders, Promoting conception. Purifying breast milk, **Uterine tonic after delivery and female genital tract**
Urinary disorders. Used for **Leucorrhoea, and vaginal muscles prolapse. Promote conception, seminal weakness and Libido stimulant.**

Active Ingredients & Pharmacology

Contains Quercetin, hyperoside, Sitosterol saponins. 🍏 Isoquinoline alkaloid, anthocyanins, malic acid. Broad spectrum antibiotic, Leucocyanidin, gallic acid and Tannins, inhibit the activity of E.coli, exhibit astringent, anti-inflammatory properties. Useful in Leucorrhoea, amenorrhoea and dysmenorrhoea. Cinnaldehyde-essential oil Inhibits histamine, reduces stress. 🍏 Flavonoids, Leucoanthocyanidin, Alpha-Beta amyryl, Beta sitosterol, Biflavonoids. D-pinitol, nor-epinephrine, Beta-sitosterol, Betulinic acid, ellagic acid, proanthocyanidin, Glycoside. **Alpha-spinasterol have highly anti-inflammatory property. Anti-oxytocic activity** Polyphenols, ellagic acid, Hecogenin, Bergenin, Oneothenin-B exhibit anti-tumor activity **Libido stimulant.**

Research Findings

- 'Berberine hydrochloride alkaloid shows significant anti-inflammatory activity on acute and chronic condition, produced by immunological and non-immunological methods.'
- Herbs *Woodfordia fruticosa* exhibited marked antitumour and anti-bacterial activity.

- Therapeutic use & Indications** :
 - **Leucorrhoea, Vaginitis and Prolapse. Enhance Sex Desire**
- Toxicity / Safety** :
 - No adverse effects have been reported in the literature.
 - Its use in human since long time with safety.
- Dose** : 2 capsules daily or as prescribed by health provider.
- Presentation** : 60 capsules (jar)
